

Non-Executive Director Position

ChemCentre is looking to recruit a new Board Director to replace a Board member whose appointment term is coming to an end. The Board has conducted an assessment against future skill needs and ideally will be looking for candidates with existing Board experience who have a background in:

- Business Data analytics
- Relevant STEM skills & experience; or
- Finance/commercial skills, with experience in technology or commercialisation

ChemCentre is seeking to attract candidates who bring a diversity of perspective to these roles. Candidates will require relevant experience and expertise, and the maturity to contribute to complex decision making within a Government Board context.

About The Organisation

ChemCentre is a Western Australian statutory authority which provides specialised chemical and forensic services to ensure a safe and prosperous Western Australian community. It serves both government and non-government clients, through State funded activity and a fee-for-service basis. Within its areas of expertise, ChemCentre also carries out research and development that contributes to scientific advancement knowledge to the benefit of WA.

Specific service areas include forensic and environmental chemistry and research and innovation. This is supported by a focused team in business and corporate services.

In addition, ChemCentre provides an Emergency Response team who provide a 24/7 service through close collaboration with the Department of Fire and Emergency Services.

Website: www.chemcentre.wa.gov.au

Important information:

Duration of Appointment: 3 years, with additional options to a maximum of a nine year term.

Remuneration: Director fees as set by the Government

How To Apply

Applications including CV should be addressed to:

Mrs McKenna Powell, ChemCentre: mpowell@chemcentre.wa.gov.au
